Index	69

Chapter 1

Namespace Index

1.1 Packages

Here are the packages with brief descriptions (if available):

com	9
com.securics	9
com.securics.wildlifecapture	9

Chapter 2

Hierarchical Index

2.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

com.securics.wildlifecapture.ActivityDebug	11
Callback	
com.securics.wildlifecapture.CameraPreview	19
com.securics.wildlifecapture.PerspectiveTransformationEngine	55
Runnable	
com.securics.wildlifecapture.MainActivity.AutoCodeRunnerRunnable	15
com.securics.wildlifecapture.MainActivity.AutoFocusRunnable	15
com.securics.wildlifecapture.MainActivity.BurstCheckerRunnable	16
com.securics.wildlifecapture.MainActivity.BurstRunnable	17
com.securics.wildlifecapture.MainActivity.PushToJNIRunnable	55
com.securics.wildlifecapture.SizeCalculationData	58
Activity	
com.securics.wildlifecapture.Documentation	25
com.securics.wildlifecapture.MainActivity	27
AsyncTask	
com.securics.wildlifecapture.MainActivity.SavePhotoTask	57
DialogPreference	
com.securics.wildlifecapture.ResetDefaults.MyFAQ	46
com.securics.wildlifecapture.TimePreference	59
EditTextPreference	
com.securics.wildlifecapture.MyNumberPreference	50
com.securics.wildlifecapture.MyStringPreference	53
ListActivity	
com.securics.wildlifecapture.ChangeResolutionActivity	22
ListPreference	
com.securics.wildlifecapture.CameraPreference.MyList	49
PreferenceActivity	
com.securics.wildlifecapture.SettingsActivity	58
PreferenceCategory	
com.securics.wildlifecapture.CameraPreference	17
com.securics.wildlifecapture.GeneralSettings	26
com.securics.wildlifecapture.ResetDefaults	56
SensorEventListener	
com.securics.wildlifecapture.MainActivity	27
SurfaceView	
com.securics.wildlifecapture.CameraPreview	19

Chapter 3

Class Index

3.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

com.securics.wildlifecapture.ActivityDebug	11
com.securics.wildlifecapture.MainActivity.AutoCodeRunnerRunnable	15
com.securics.wildlifecapture.MainActivity.AutoFocusRunnable	15
com.securics.wildlifecapture.MainActivity.BurstCheckerRunnable	16
com.securics.wildlifecapture.MainActivity.BurstRunnable	17
com.securics.wildlifecapture.CameraPreference	17
com.securics.wildlifecapture.CameraPreview	19
com.securics.wildlifecapture.ChangeResolutionActivity	22
com.securics.wildlifecapture.Documentation	25
com.securics.wildlifecapture.GeneralSettings	26
com.securics.wildlifecapture.MainActivity	27
com.securics.wildlifecapture.ResetDefaults.MyFAQ	46
com.securics.wildlifecapture.CameraPreference.MyList	49
com.securics.wildlifecapture.MyNumberPreference	50
com.securics.wildlifecapture.MyStringPreference	53
com.securics.wildlifecapture.PerspectiveTransformationEngine	55
com.securics.wildlifecapture.MainActivity.PushToJNIRunnable	55
com.securics.wildlifecapture.ResetDefaults	56
com.securics.wildlifecapture.MainActivity.SavePhotoTask	57
com.securics.wildlifecapture.SettingsActivity	58
com.securics.wildlifecapture.SizeCalculationData	58
com.securics.wildlifecapture.TimePreference	59

Chapter 4

File Index

4.1 File List

Here is a list of all files with brief descriptions:

src/com/securics/wildlifecapture/ ActivityDebug.java	65
src/com/securics/wildlifecapture/ CameraPreference.java	65
src/com/securics/wildlifecapture/ CameraPreview.java	65
src/com/securics/wildlifecapture/ ChangeResolutionActivity.java	66
src/com/securics/wildlifecapture/ Documentation.java	66
src/com/securics/wildlifecapture/ GeneralSettings.java	66
src/com/securics/wildlifecapture/ MainActivity.java	66
src/com/securics/wildlifecapture/ MyNumberPreference.java	67
src/com/securics/wildlifecapture/ MyStringPreference.java	67
src/com/securics/wildlifecapture/ PerspectiveTransformationEngine.java	67
src/com/securics/wildlifecapture/ ResetDefaults.java	67
src/com/securics/wildlifecapture/ SettingsActivity.java	68
src/com/securics/wildlifecapture/ SizeCalculationData.java	68
src/com/securics/wildlifecapture/ TimePreference.java	68

Chapter 5

Namespace Documentation

5.1 Package com

Packages

- package **securics**

5.2 Package com.securics

Packages

- package **wildlifecapture**

5.3 Package com.securics.wildlifecapture

Classes

- class **ActivityDebug**
- class **CameraPreference**
- class **CameraPreview**
- class **ChangeResolutionActivity**
- class **Documentation**
- class **GeneralSettings**
- class **MainActivity**
- class **MyNumberPreference**
- class **MyStringPreference**
- class **PerspectiveTransformationEngine**
- class **ResetDefaults**
- class **SettingsActivity**
- class **SizeCalculationData**
- class **TimePreference**

Chapter 6

Class Documentation

6.1 com.securics.wildlifecapture.ActivityDebug Class Reference

Public Member Functions

- **ActivityDebug** (String lf)
- void **EndPhotoSnapperDebug** ()
- void **logHeap** (Class<?> clazz)
- void **setID** (String ID)
- void **logMessage** (String tag, String message)

Public Attributes

- BroadcastReceiver **batteryInfoReceiver**

Private Member Functions

- float[] **readUsage** ()

Private Attributes

- final long **DELAY** = 1000 * 30
- String **myID** = "notset"
- Handler **PSHandler** = new Handler()
- final String **LOG_FILE**
- Thread **ReadingUsage**

Static Private Attributes

- static final String **TAG** = "MyDebug"

6.1.1 Detailed Description

Definition at line 22 of file ActivityDebug.java.

6.1.2 Constructor & Destructor Documentation

6.1.2.1 `com.securics.wildlifecapture.ActivityDebug.ActivityDebug (String lf)`

Set LOG_FILE name and add ReadingUsage to message Queue

Parameters

<i>If</i>	
-----------	--

Definition at line 40 of file ActivityDebug.java.

References com.securics.wildlifecapture.ActivityDebug.LOG_FILE, and com.securics.wildlifecapture.ActivityDebug.ReadingUsage.

6.1.3 Member Function Documentation

6.1.3.1 void com.securics.wildlifecapture.ActivityDebug.EndPhotoSnapperDebug ()

Removes pending post from ReadingUsage

Definition at line 48 of file ActivityDebug.java.

References com.securics.wildlifecapture.ActivityDebug.ReadingUsage.

6.1.3.2 void com.securics.wildlifecapture.ActivityDebug.logHeap (Class<?> clazz)

display head usage

Parameters

<i>clazz</i>	
--------------	--

Definition at line 143 of file ActivityDebug.java.

References com.securics.wildlifecapture.ActivityDebug.logMessage(), and com.securics.wildlifecapture.ActivityDebug.TAG.

6.1.3.3 void com.securics.wildlifecapture.ActivityDebug.logMessage (String tag, String message)

writes message in text file LOG_FILE

Parameters

<i>tag</i>	
<i>message</i>	

Definition at line 173 of file ActivityDebug.java.

References com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.ActivityDebug.LOG_FILE, and com.securics.wildlifecapture.ActivityDebug.myID.

Referenced by com.securics.wildlifecapture.ActivityDebug.logHeap(), and com.securics.wildlifecapture.ActivityDebug.readUsage().

6.1.3.4 float [] com.securics.wildlifecapture.ActivityDebug.readUsage () [private]

reads CPU usage

Definition at line 56 of file ActivityDebug.java.

References com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.ActivityDebug.logMessage(), and com.securics.wildlifecapture.ActivityDebug.TAG.

6.1.3.5 void com.securics.wildlifecapture.ActivityDebug.setID (String ID)

gets ID

Parameters

<i>ID</i>	
-----------	--

Definition at line 164 of file ActivityDebug.java.

References com.securics.wildlifecapture.ActivityDebug.myID.

6.1.4 Member Data Documentation

6.1.4.1 BroadcastReceiver com.securics.wildlifecapture.ActivityDebug.batteryInfoReceiver

gets level, scale, status, and teperature of battery

Definition at line 203 of file ActivityDebug.java.

6.1.4.2 final long com.securics.wildlifecapture.ActivityDebug.DELAY = 1000 * 30 [private]

Definition at line 27 of file ActivityDebug.java.

6.1.4.3 final String com.securics.wildlifecapture.ActivityDebug.LOG_FILE [private]

Definition at line 34 of file ActivityDebug.java.

Referenced by com.securics.wildlifecapture.ActivityDebug.ActivityDebug(), and com.securics.wildlifecapture.↵ ActivityDebug.logMessage().

6.1.4.4 String com.securics.wildlifecapture.ActivityDebug.myID = "notset" [private]

Definition at line 29 of file ActivityDebug.java.

Referenced by com.securics.wildlifecapture.ActivityDebug.logMessage(), and com.securics.wildlifecapture.↵ ActivityDebug.setID().

6.1.4.5 Handler com.securics.wildlifecapture.ActivityDebug.PSHandler = new Handler() [private]

Definition at line 31 of file ActivityDebug.java.

6.1.4.6 Thread com.securics.wildlifecapture.ActivityDebug.ReadingUsage [private]

Initial value:

```
= new Thread() {
    @Override
    public void run() {
        readUsage();
        PSHandler.postDelayed(ReadingUsage, DELAY);
    }
}
```

runs ReadUsage ina different thread and post it to the message queue

Definition at line 253 of file ActivityDebug.java.

Referenced by com.securics.wildlifecapture.ActivityDebug.ActivityDebug(), and com.securics.wildlifecapture.↵ ActivityDebug.EndPhotoSnapperDebug().

6.1.4.7 `final String com.securics.wildlifecapture.ActivityDebug.TAG = "MyDebug"` [static], [private]

Definition at line 24 of file ActivityDebug.java.

Referenced by `com.securics.wildlifecapture.ActivityDebug.logHeap()`, and `com.securics.wildlifecapture.ActivityDebug.readUsage()`.

The documentation for this class was generated from the following file:

6.4 com.securics.wildlifecapture.MainActivity.BurstCheckerRunnable Class Reference

Inheritance diagram for com.securics.wildlifecapture.MainActivity.BurstCheckerRunnable:

Public Member Functions

- void **run** ()

6.4.1 Detailed Description

Definition at line 2595 of file MainActivity.java.

6.4.2 Member Function Documentation

6.4.2.1 void com.securics.wildlifecapture.MainActivity.BurstCheckerRunnable.run ()

Definition at line 2599 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.captureBurst(), com.securics.wildlifecapture.MainActivity.DEATH, and com.securics.wildlifecapture.MainActivity.willDoCameraBurst.

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**MainActivity.java**

6.5 com.securics.wildlifecapture.MainActivity.BurstRunnable Class Reference

Inheritance diagram for com.securics.wildlifecapture.MainActivity.BurstRunnable:

Public Member Functions

- void **run** ()

6.5.1 Detailed Description

This is the main running part of the thread.

Definition at line 2484 of file MainActivity.java.

6.5.2 Member Function Documentation

6.5.2.1 void com.securics.wildlifecapture.MainActivity.BurstRunnable.run ()

Definition at line 2486 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.burstCanRun, com.securics.wildlifecapture.MainActivity.burstIsBusy, com.securics.wildlifecapture.MainActivity.burstNum, com.securics.wildlifecapture.MainActivity.cam, com.securics.wildlifecapture.MainActivity.cameraLock, com.securics.wildlifecapture.MainActivity.DEATH, com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.MainActivity.mDebug, com.securics.wildlifecapture.MainActivity.PicCallback, and com.securics.wildlifecapture.MainActivity.TAG.

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**MainActivity.java**

6.6 com.securics.wildlifecapture.CameraPreference Class Reference

Inheritance diagram for com.securics.wildlifecapture.CameraPreference:

Classes

- class **MyList**

Public Member Functions

- **CameraPreference** (Context context, AttributeSet attrs)

Protected Member Functions

- void **onBindView** (View view)

Private Member Functions

- void **addMyList** (ArrayList< **MyList** > lst)

6.6.1 Detailed Description

Definition at line 15 of file CameraPreference.java.

6.6.2 Constructor & Destructor Documentation

6.6.2.1 com.securics.wildlifecapture.CameraPreference.CameraPreference (Context context, AttributeSet attrs)

Sets class context, attrs using context and attrs. Creates and insert values in theList

Parameters

<i>context</i>	
<i>attrs</i>	

Definition at line 27 of file CameraPreference.java.

6.6.3 Member Function Documentation

6.6.3.1 void com.securics.wildlifecapture.CameraPreference.addMyList (ArrayList< **MyList** > lst) [private]

Add teList to **MyList** (p. 49)

Parameters

<i>lst</i>	
------------	--

Definition at line 57 of file CameraPreference.java.

Referenced by com.securics.wildlifecapture.CameraPreference.onBindView().

6.6.3.2 void com.securics.wildlifecapture.CameraPreference.onBindView (View view) [protected]

Calls addMyList to add theList to **MyList** (p. 49)

Definition at line 47 of file CameraPreference.java.

References com.securics.wildlifecapture.CameraPreference.addMyList().

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**CameraPreference.java**

6.7 com.securics.wildlifecapture.CameraPreview Class Reference

Inheritance diagram for com.securics.wildlifecapture.CameraPreview:

Public Member Functions

- **CameraPreview** (Context context, Camera **cam**)
- void **surfaceCreated** (SurfaceHolder holder)
- void **surfaceChanged** (SurfaceHolder holder, int format, int width, int height)
- void **surfaceDestroyed** (SurfaceHolder holder)

Public Attributes

- Camera **cam**

Private Member Functions

- void **initCamera** ()

Private Attributes

- SurfaceHolder **sHolder**

Static Private Attributes

- static final String **TAG** = "CameraPreview"

6.7.1 Detailed Description

Definition at line 15 of file CameraPreview.java.

6.7.2 Constructor & Destructor Documentation

6.7.2.1 `com.securics.wildlifecapture.CameraPreview.CameraPreview (Context context, Camera cam)`

Call `initCamera` to set camera

Parameters

<i>context</i>	
<i>cam</i>	

Definition at line 27 of file CameraPreview.java.

References com.securics.wildlifecapture.CameraPreview.cam, com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.CameraPreview.initCamera(), com.securics.wildlifecapture.CameraPreview.sHolder, and com.securics.wildlifecapture.CameraPreview.TAG.

6.7.3 Member Function Documentation

6.7.3.1 void com.securics.wildlifecapture.CameraPreview.initCamera () [private]

Set camera parameters to preferred settings

Definition at line 42 of file CameraPreview.java.

References com.securics.wildlifecapture.MainActivity.debugMode, and com.securics.wildlifecapture.CameraPreview.TAG.

Referenced by com.securics.wildlifecapture.CameraPreview.CameraPreview().

6.7.3.2 void com.securics.wildlifecapture.CameraPreview.surfaceChanged (SurfaceHolder *holder*, int *format*, int *width*, int *height*)

previews if camera is on

Definition at line 98 of file CameraPreview.java.

References com.securics.wildlifecapture.CameraPreview.cam, and com.securics.wildlifecapture.MainActivity.debugMode.

6.7.3.3 void com.securics.wildlifecapture.CameraPreview.surfaceCreated (SurfaceHolder *holder*)

previews display of camera is on

Definition at line 82 of file CameraPreview.java.

References com.securics.wildlifecapture.CameraPreview.cam, com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.CameraPreview.sHolder, and com.securics.wildlifecapture.CameraPreview.TAG.

6.7.3.4 void com.securics.wildlifecapture.CameraPreview.surfaceDestroyed (SurfaceHolder *holder*)

closes camera

Definition at line 114 of file CameraPreview.java.

References com.securics.wildlifecapture.CameraPreview.cam, and com.securics.wildlifecapture.MainActivity.debugMode.

6.7.4 Member Data Documentation

6.7.4.1 Camera com.securics.wildlifecapture.CameraPreview.cam

Definition at line 19 of file CameraPreview.java.

Referenced by `com.securics.wildlifecapture.CameraPreview.CameraPreview()`, `com.securics.wildlifecapture.CameraPreview.surfaceChanged()`, `com.securics.wildlifecapture.CameraPreview.surfaceCreated()`, and `com.securics.wildlifecapture.CameraPreview.surfaceDestroyed()`.

6.7.4.2 SurfaceHolder `com.securics.wildlifecapture.CameraPreview.sHolder` `[private]`

Definition at line 20 of file `CameraPreview.java`.

Referenced by `com.securics.wildlifecapture.CameraPreview.CameraPreview()`, and `com.securics.wildlifecapture.CameraPreview.surfaceCreated()`.

6.7.4.3 `final String com.securics.wildlifecapture.CameraPreview.TAG = "CameraPreview"` `[static], [private]`

Definition at line 16 of file `CameraPreview.java`.

Referenced by `com.securics.wildlifecapture.CameraPreview.CameraPreview()`, `com.securics.wildlifecapture.CameraPreview.initCamera()`, and `com.securics.wildlifecapture.CameraPreview.surfaceCreated()`.

The documentation for this class was generated from the following file:

- `src/com/securics/wildlifecapture/CameraPreview.java`

6.8 `com.securics.wildlifecapture.ChangeResolutionActivity` Class Reference

Inheritance diagram for `com.securics.wildlifecapture.ChangeResolutionActivity`:

Public Member Functions

- void **getSizeData** ()
- void **sizeToString** ()
- void **setListView** ()
- boolean **onCreateOptionsMenu** (Menu menu)
- void **onListItemClick** (ListView tmp, View v, int pos, long id)

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)
- void **onResume** ()

Private Member Functions

- Camera **getCameraInstance** ()

Private Attributes

- ListView **internalView**
- Camera **camCopy**
- Size **picSize**
- List< Size > **sizeList**
- String[] **sizeNames**

6.8.1 Detailed Description

Definition at line 16 of file ChangeResolutionActivity.java.

6.8.2 Member Function Documentation

6.8.2.1 Camera com.securics.wildlifecapture.ChangeResolutionActivity.getCameraInstance () [private]

Attempt to get a camera.

Definition at line 135 of file ChangeResolutionActivity.java.

References com.securics.wildlifecapture.MainActivity.debugMode.

Referenced by com.securics.wildlifecapture.ChangeResolutionActivity.onResume().

6.8.2.2 void com.securics.wildlifecapture.ChangeResolutionActivity.getSizeData ()

This should probably be able to potentially maybe get the sizeList from the non-static copy of the static camera contained in **MainActivity** (p. 27).

Definition at line 28 of file ChangeResolutionActivity.java.

References com.securics.wildlifecapture.ChangeResolutionActivity.sizeList.

Referenced by com.securics.wildlifecapture.ChangeResolutionActivity.onResume().

6.8.2.3 void com.securics.wildlifecapture.ChangeResolutionActivity.onCreate (Bundle savedInstanceState) [protected]

set layout

Definition at line 75 of file ChangeResolutionActivity.java.

6.8.2.4 boolean com.securics.wildlifecapture.ChangeResolutionActivity.onCreateOptionsMenu (Menu menu)

Create an option menu Inflate the menu; this adds items to the action bar if it is present.

Definition at line 109 of file ChangeResolutionActivity.java.

6.8.2.5 void com.securics.wildlifecapture.ChangeResolutionActivity.onListItemClick (ListView tmp, View v, int pos, long id)

Set resolution on **MainActivity** (p. 27)

Definition at line 118 of file ChangeResolutionActivity.java.

References com.securics.wildlifecapture.ChangeResolutionActivity.camCopy, and com.securics.wildlifecapture.ChangeResolutionActivity.sizeNames.

6.8.2.6 void com.securics.wildlifecapture.ChangeResolutionActivity.onResume () [protected]

get instance of camera

Definition at line 85 of file ChangeResolutionActivity.java.

References com.securics.wildlifecapture.ChangeResolutionActivity.camCopy, com.securics.wildlifecapture.ChangeResolutionActivity.getCameraInstance(), com.securics.wildlifecapture.ChangeResolutionActivity.getSizeData(), com.securics.wildlifecapture.ChangeResolutionActivity.internalView, com.securics.wildlifecapture.ChangeResolutionActivity.setListView(), and com.securics.wildlifecapture.ChangeResolutionActivity.sizeToString().

6.8.2.7 void com.securics.wildlifecapture.ChangeResolutionActivity.setListView ()

set list adapter Set up the array adapter.

Definition at line 64 of file ChangeResolutionActivity.java.

References com.securics.wildlifecapture.ChangeResolutionActivity.sizeNames.

Referenced by com.securics.wildlifecapture.ChangeResolutionActivity.onResume().

6.8.2.8 void com.securics.wildlifecapture.ChangeResolutionActivity.sizeToString ()

Add all picture sizes to sizeNames array

Definition at line 39 of file ChangeResolutionActivity.java.

References com.securics.wildlifecapture.ChangeResolutionActivity.sizeList, and com.securics.wildlifecapture.ChangeResolutionActivity.sizeNames.

Referenced by com.securics.wildlifecapture.ChangeResolutionActivity.onResume().

6.8.3 Member Data Documentation

6.8.3.1 Camera com.securics.wildlifecapture.ChangeResolutionActivity.camCopy [private]

Definition at line 19 of file ChangeResolutionActivity.java.

Referenced by com.securics.wildlifecapture.ChangeResolutionActivity.onListItemClick(), and com.securics.wildlifecapture.ChangeResolutionActivity.onResume().

6.8.3.2 ListView com.securics.wildlifecapture.ChangeResolutionActivity.internalView [private]

Definition at line 18 of file ChangeResolutionActivity.java.

Referenced by com.securics.wildlifecapture.ChangeResolutionActivity.onResume().

6.8.3.3 Size com.securics.wildlifecapture.ChangeResolutionActivity.picSize [private]

Definition at line 20 of file ChangeResolutionActivity.java.

6.8.3.4 List<Size> com.securics.wildlifecapture.ChangeResolutionActivity.sizeList [private]

Definition at line 21 of file ChangeResolutionActivity.java.

Referenced by com.securics.wildlifecapture.ChangeResolutionActivity.getSizeData(), and com.securics.wildlifecapture.ChangeResolutionActivity.sizeToString().

6.8.3.5 String [] com.securics.wildlifecapture.ChangeResolutionActivity.sizeNames [private]

Definition at line 22 of file ChangeResolutionActivity.java.

Referenced by com.securics.wildlifecapture.ChangeResolutionActivity.onListItemClick(), com.securics.wildlifecapture.ChangeResolutionActivity.setListView(), and com.securics.wildlifecapture.ChangeResolutionActivity.sizeToString().

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/ChangeResolutionActivity.java

6.9 com.securics.wildlifecapture.Documentation Class Reference

Inheritance diagram for com.securics.wildlifecapture.Documentation:

Public Member Functions

- boolean **onCreateOptionsMenu** (Menu menu)
- boolean **onOptionsItemSelected** (MenuItem item)

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)

6.9.1 Detailed Description

This activity is an online documentation engine for the program. The way this activity displays documentation is via a package-integrated web page. It may be possible to eventually have a tabbed help interface that loads individual HTML pages for every section, however that will not be implemented soon.

Definition at line 19 of file Documentation.java.

6.9.2 Member Function Documentation

6.9.2.1 void com.securics.wildlifecapture.Documentation.onCreate (Bundle savedInstanceState) [protected]

Set activity layout and action bar Note: There should be a table of if statements regarding the tab names and which page to load.

Definition at line 31 of file Documentation.java.

6.9.2.2 boolean com.securics.wildlifecapture.Documentation.onCreateOptionsMenu (Menu menu)

Creates a menu

Definition at line 125 of file Documentation.java.

6.9.2.3 boolean com.securics.wildlifecapture.Documentation.onOptionsItemSelected (MenuItem *item*)

Listener for onCreateOptionsMenu

Definition at line 135 of file Documentation.java.

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**Documentation.java**

6.10 com.securics.wildlifecapture.GeneralSettings Class Reference

Inheritance diagram for com.securics.wildlifecapture.GeneralSettings:

Public Member Functions

- **GeneralSettings** (Context context, AttributeSet attrs)

Protected Member Functions

- void **onBindView** (View view)

Private Member Functions

- void **loadParams** ()

6.10.1 Detailed Description

Definition at line 9 of file GeneralSettings.java.

6.10.2 Constructor & Destructor Documentation

6.10.2.1 com.securics.wildlifecapture.GeneralSettings.GeneralSettings (Context *context*, AttributeSet *attrs*)

Depending on title from context, input the array from either generalstuff or general_swindow

Parameters

<i>context</i>	
<i>attrs</i>	

Definition at line 22 of file GeneralSettings.java.

References com.securics.wildlifecapture.MainActivity.debugMode.

6.10.3 Member Function Documentation

6.10.3.1 void com.securics.wildlifecapture.GeneralSettings.loadParams () [private]

uses **MyNumberPreference** (p. 50) to load values to mp

Definition at line 54 of file GeneralSettings.java.

References com.securics.wildlifecapture.MyNumberPreference.setType().

Referenced by com.securics.wildlifecapture.GeneralSettings.onBindView().

6.10.3.2 void com.securics.wildlifecapture.GeneralSettings.onBindView (View view) [protected]

calls loadParams

Definition at line 44 of file GeneralSettings.java.

References com.securics.wildlifecapture.GeneralSettings.loadParams().

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**GeneralSettings.java**

6.11 com.securics.wildlifecapture.MainActivity Class Reference

6.11.1 Detailed Description

Definition at line 65 of file MainActivity.java.

6.11.2 Member Function Documentation

6.11.2.1 void com.securics.wildlifecapture.MainActivity.autoDelete () [private]

This function automatically deletes the images that have been moved to the ".Processed" directory.

Definition at line 2718 of file MainActivity.java.

Referenced by com.securics.wildlifecapture.MainActivity.AutoFocusRunnable.run().

6.11.2.2 void com.securics.wildlifecapture.MainActivity.AutoRunCode () [private]

This code is to be modified to complete task 1.

Definition at line 1105 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.autoRunCodeMayRun, and com.securics.wildlifecapture.MainActivity.autoRunCodeRunner.

Referenced by com.securics.wildlifecapture.MainActivity.startStop().

6.11.2.3 double com.securics.wildlifecapture.MainActivity.calcDays (Camera.Parameters *params*, int *idNum*)

Definition at line 1978 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.calcNumOfPictures().

Referenced by com.securics.wildlifecapture.MainActivity.runResolutionDialog().

6.11.2.4 boolean com.securics.wildlifecapture.MainActivity.calcForRAM (long *length*, long *width*)

This function will accept a resolution value and return whether or not that selected resolution should work with the device while processing. Due to the variable nature of image compression and memory configurations, this will be calculated as a proportion from the baseline established on the Asus testing tablet.

Definition at line 2035 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.TAG.

Referenced by com.securics.wildlifecapture.MainActivity.runResolutionDialog().

6.11.2.5 int com.securics.wildlifecapture.MainActivity.calcNumOfPictures (int *width*, int *height*)

This function accepts a resolution and estimates the number of images at this resolution that will fit into the device's storage. Since JPEG is a compressed format, this is more of a guess than a real estimate.

Definition at line 2124 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.debugMode, and com.securics.wildlifecapture.MainActivity.TAG.

Referenced by com.securics.wildlifecapture.MainActivity.calcDays(), com.securics.wildlifecapture.MainActivity.runResolutionDialog(), and com.securics.wildlifecapture.MainActivity.setRes().

6.11.2.6 void com.securics.wildlifecapture.MainActivity.captureBurst () throws InterruptedException [private]

This is the camera burst capture function.

Definition at line 2633 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.burstCanRun, and com.securics.wildlifecapture.MainActivity.burstCaptureThread.

Referenced by com.securics.wildlifecapture.MainActivity.BurstCheckerRunnable.run().

6.11.2.7 void com.securics.wildlifecapture.MainActivity.captureVideo (int lengthInMillis)

Capture a brief bit of video when PushToJNI says so: NOTE: This funtion does not cause a crash in the program.

Definition at line 2386 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.cam, com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.MainActivity.DEVICE_ID, and com.securics.wildlifecapture.MainActivity.TAG.

Referenced by com.securics.wildlifecapture.MainActivity.onOptionsItemSelected().

6.11.2.8 void com.securics.wildlifecapture.MainActivity.changeFreqDialog () [private]

Definition at line 2301 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.numOfPicsPerCapture, com.securics.wildlifecapture.MainActivity.outDialog, com.securics.wildlifecapture.MainActivity.TAG, and com.securics.wildlifecapture.MainActivity.timeInterval.

Referenced by com.securics.wildlifecapture.MainActivity.onOptionsItemSelected().

6.11.2.9 void com.securics.wildlifecapture.MainActivity.createFolder (int id_key, int id_default) [private]

Definition at line 1526 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.MainActivity.getRootSDCard(), com.securics.wildlifecapture.MainActivity.mDebug, and com.securics.wildlifecapture.MainActivity.TAG.

Referenced by com.securics.wildlifecapture.MainActivity.loadPrefs().

6.11.2.10 native int com.securics.wildlifecapture.MainActivity.doRevisedJNI (String rawName, String configFileName, String name, double camVertDegRange, double camHorizDegRange, double picSizeX, double picSizeY)

So we can pass the config stuff to JNI

Referenced by com.securics.wildlifecapture.MainActivity.PushToJNIRunnable.doPushing(), and com.securics.wildlifecapture.MainActivity.pushStr().

6.11.2.11 void com.securics.wildlifecapture.MainActivity.fitRAM ()

This function exists to automatically determine which camera resolution is best for the user given the amount of RAM available in the device. Open up a kernel data structure for reading:

Definition at line 1994 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.debugMode, and com.securics.wildlifecapture.MainActivity.TAG.

Referenced by com.securics.wildlifecapture.MainActivity.onOptionsItemSelected().

6.11.2.12 Camera com.securics.wildlifecapture.MainActivity.getCameraInstance () [private]

Definition at line 1377 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.CAM_3D, com.securics.wildlifecapture.MainActivity.debugMode, and com.securics.wildlifecapture.MainActivity.TAG.

Referenced by com.securics.wildlifecapture.MainActivity.onCreate(), and com.securics.wildlifecapture.MainActivity.onResume().

6.11.2.13 String com.securics.wildlifecapture.MainActivity.getRootSDCard ()

Definition at line 1390 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.TAG.

Referenced by com.securics.wildlifecapture.MainActivity.createFolder(), com.securics.wildlifecapture.MainActivity.loadPrefs(), com.securics.wildlifecapture.MainActivity.onCreate(), com.securics.wildlifecapture.MainActivity.onOptionsItemSelected(), com.securics.wildlifecapture.MainActivity.sendConfigToJNI(), com.securics.wildlifecapture.MainActivity.showPopupMenu(), com.securics.wildlifecapture.MainActivity.spaceAvailable(), and com.securics.wildlifecapture.MainActivity.startStop().

6.11.2.14 static native int com.securics.wildlifecapture.MainActivity.giveConfig (String key, String value) [static]

Referenced by com.securics.wildlifecapture.MainActivity.sendConfigToJNI().

6.11.2.15 boolean com.securics.wildlifecapture.MainActivity.isSpaceAvailable (long length) [private]

Definition at line 1820 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.debugMode, and com.securics.wildlifecapture.MainActivity.spaceAvailable().

6.11.2.16 boolean com.securics.wildlifecapture.MainActivity.loadPrefs () [private]

Definition at line 1436 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.burstCaptureDir, com.securics.wildlifecapture.MainActivity.createFolder(), com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.MainActivity.DVICE_ID, com.securics.wildlifecapture.MainActivity.directory, com.securics.wildlifecapture.MainActivity.END_HOUR, com.securics.wildlifecapture.MainActivity.END_MINUTE, com.securics.wildlifecapture.MainActivity.getRootSDCard(), com.securics.wildlifecapture.MainActivity.LOG_FILE, com.securics.wildlifecapture.MainActivity.prefsLoaded, com.securics.wildlifecapture.MainActivity.SKIP_JNI, com.securics.wildlifecapture.MainActivity.START_HOUR, com.securics.wildlifecapture.MainActivity.START_MINUTE, and com.securics.wildlifecapture.MainActivity.TAG.

Referenced by com.securics.wildlifecapture.MainActivity.onActivityResult(), com.securics.wildlifecapture.MainActivity.onCreate(), and com.securics.wildlifecapture.MainActivity.onResume().

6.11.2.17 void com.securics.wildlifecapture.MainActivity.logPhoto (String filename)

This will put a photo into a log during the image capture only mode so that the process only mode will be able to process through it

Definition at line 1349 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.processingQueueLog, and com.securics.wildlifecapture.MainActivity.TAG.

Referenced by com.securics.wildlifecapture.MainActivity.SavePhotoTask.doInBackground(), and com.securics.wildlifecapture.MainActivity.AutoCodeRunnerRunnable.run().

- void **onBindDialogView** (View view)

Private Member Functions

- boolean **resetAllSettings** ()

Private Attributes

- TextView **mEditText**
- String **mText**

6.12.1 Detailed Description

Definition at line 44 of file `ResetDefaults.java`.

6.12.2 Constructor & Destructor Documentation

6.12.2.1 `com.securics.wildlifecapture.ResetDefaults.MyFAQ.MyFAQ ()`

Initialize question and answer. Set dialog title and title to variable question, set summary to Reset All Settings, and text to variable answer

Definition at line 52 of file ResetDefaults.java.

References com.securics.wildlifecapture.ResetDefaults.MyFAQ.setText().

6.12.2.2 com.securics.wildlifecapture.ResetDefaults.MyFAQ.MyFAQ (Context *context*, AttributeSet *attrs*, int *defStyle*)

Uses function super to call parent constructor with parameters context, attrs, and defStyle

Parameters

<i>context</i>	
<i>attrs</i>	
<i>defStyle</i>	

Definition at line 70 of file ResetDefaults.java.

6.12.2.3 com.securics.wildlifecapture.ResetDefaults.MyFAQ.MyFAQ (Context *context*, AttributeSet *attrs*)

Uses function super to call parent constructor with parameters context and attrs

Parameters

<i>context</i>	
<i>attrs</i>	

Definition at line 79 of file ResetDefaults.java.

6.12.3 Member Function Documentation

6.12.3.1 String com.securics.wildlifecapture.ResetDefaults.MyFAQ.getText ()

Returns mText

Returns

Definition at line 105 of file ResetDefaults.java.

References com.securics.wildlifecapture.ResetDefaults.MyFAQ.mText.

6.12.3.2 void com.securics.wildlifecapture.ResetDefaults.MyFAQ.onBindDialogView (View *view*) [protected]

Set mText as text for mEditText

Definition at line 113 of file ResetDefaults.java.

References com.securics.wildlifecapture.ResetDefaults.MyFAQ.mText.

6.12.3.3 void com.securics.wildlifecapture.ResetDefaults.MyFAQ.onClick (DialogInterface *dialog*, int *which*)

Manage feedback from buttons

Definition at line 121 of file ResetDefaults.java.

References com.securics.wildlifecapture.ResetDefaults.MyFAQ.mText, and com.securics.wildlifecapture.ResetDefaults.MyFAQ.resetAllSettings().

6.12.3.4 View `com.securics.wildlifecapture.ResetDefaults.MyFAQ.onCreateDialogView ()` `[protected]`

Definition at line 86 of file `ResetDefaults.java`.

References `com.securics.wildlifecapture.ResetDefaults.MyFAQ.mEditText`.

6.12.3.5 boolean `com.securics.wildlifecapture.ResetDefaults.MyFAQ.resetAllSettings ()` `[private]`

Resets squirrel and window params, camera, schedule, capture Schedule settings and file and folder locations to default.

Returns

General Squirrel Params

Sliding Window Params

Camera Settings

Capture Schedule Settings

File and Folder locations

Definition at line 142 of file `ResetDefaults.java`.

Referenced by `com.securics.wildlifecapture.ResetDefaults.MyFAQ.onClick()`.

6.12.3.6 void `com.securics.wildlifecapture.ResetDefaults.MyFAQ.setText (String text)`

Set `mText` to `text`

Parameters

<i>text</i>	
-------------	--

Definition at line 97 of file `ResetDefaults.java`.

References `com.securics.wildlifecapture.ResetDefaults.MyFAQ.mText`.

Referenced by `com.securics.wildlifecapture.ResetDefaults.MyFAQ.MyFAQ()`.

6.12.4 Member Data Documentation

6.12.4.1 TextView `com.securics.wildlifecapture.ResetDefaults.MyFAQ.mEditText` `[private]`

Definition at line 83 of file `ResetDefaults.java`.

Referenced by `com.securics.wildlifecapture.ResetDefaults.MyFAQ.onCreateDialogView()`.

6.12.4.2 String `com.securics.wildlifecapture.ResetDefaults.MyFAQ.mText` `[private]`

Definition at line 92 of file `ResetDefaults.java`.

Referenced by `com.securics.wildlifecapture.ResetDefaults.MyFAQ.getText()`, `com.securics.wildlifecapture.ResetDefaults.MyFAQ.onBindDialogView()`, `com.securics.wildlifecapture.ResetDefaults.MyFAQ.onClick()`, and `com.securics.wildlifecapture.ResetDefaults.MyFAQ.setText()`.

The documentation for this class was generated from the following file:

6.13 com.securics.wildlifecapture.CameraPreference.MyList Class Reference

Inheritance diagram for com.securics.wildlifecapture.CameraPreference.MyList:

Public Member Functions

- **MyList** (int m)
- **MyList** (Context context, AttributeSet attrs)

Private Member Functions

- void **myMode** (int m)

6.13.1 Detailed Description

Definition at line 65 of file CameraPreference.java.

6.13.2 Constructor & Destructor Documentation

6.13.2.1 com.securics.wildlifecapture.CameraPreference.MyList.MyList (int *m*)

Set entries, entry values, title to myTitle and button text

Parameters

<i>m</i>	
----------	--

Definition at line 75 of file CameraPreference.java.

References com.securics.wildlifecapture.CameraPreference.MyList.myMode().

6.13.2.2 com.securics.wildlifecapture.CameraPreference.MyList.MyList (Context *context*, AttributeSet *attrs*)

Set entries, entry values, title to myTitle and button text

Parameters

<i>context</i>	
<i>attrs</i>	

Definition at line 91 of file CameraPreference.java.

6.13.3 Member Function Documentation

6.13.3.1 void com.securics.wildlifecapture.CameraPreference.MyList.myMode (int *m*) [private]

Uses a switch to set variables accordingly

Parameters

<i>m</i>	
----------	--

Definition at line 101 of file CameraPreference.java.

Referenced by com.securics.wildlifecapture.CameraPreference.MyList.MyList().

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**CameraPreference.java**

6.14 com.securics.wildlifecapture.MyNumberPreference Class Reference

Inheritance diagram for com.securics.wildlifecapture.MyNumberPreference:

Public Member Functions

- **MyNumberPreference** (Context context, AttributeSet attrs)
- void **setType** (String type)
- void **defaultValue** (String value)

Protected Member Functions

- void **onBindView** (View view)
- void **onDialogClosed** (boolean positiveResult)
- Object **onGetDefaultValue** (TypedArray a, int index)
- void **onSetInitialValue** (boolean restoreValue, Object **defaultValue**)
- Parcelable **onSaveInstanceState** ()

Private Attributes

- int **savedInt**
- float **savedFloat**
- String **preference_string**
- String **myType**
- String **myDefaultValue**

6.14.1 Detailed Description

Definition at line 14 of file MyNumberPreference.java.

6.14.2 Constructor & Destructor Documentation

6.14.2.1 com.securics.wildlifecapture.MyNumberPreference.MyNumberPreference (Context *context*, AttributeSet *attrs*)

This is the constructor called by the inflater

Parameters

<i>context</i>	
<i>attrs</i>	

Definition at line 26 of file MyNumberPreference.java.

References com.securics.wildlifecapture.MyNumberPreference.myDefaultValue, and com.securics.wildlifecapture.↵
MyNumberPreference.myType.

6.14.3 Member Function Documentation

6.14.3.1 void com.securics.wildlifecapture.MyNumberPreference.defaultValue (String *value*)

Sets value of myDefaultValue

Parameters

<i>value</i>	
--------------	--

Definition at line 45 of file MyNumberPreference.java.

References com.securics.wildlifecapture.MyNumberPreference.myDefaultValue.

6.14.3.2 void com.securics.wildlifecapture.MyNumberPreference.onBindView (View *view*) [protected]

Sets value of savedInt, savedFloat, and preference_string Set our custom views inside the layout

Definition at line 54 of file MyNumberPreference.java.

References com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.MyNumber↵
Preference.myDefaultValue, com.securics.wildlifecapture.MyNumberPreference.myType, com.securics.wildlifecapture.↵
MyNumberPreference.preference_string, com.securics.wildlifecapture.MyNumberPreference.savedFloat, and
com.securics.wildlifecapture.MyNumberPreference.savedInt.

6.14.3.3 void com.securics.wildlifecapture.MyNumberPreference.onDialogClosed (boolean *positiveResult*) [protected]

Saved value of savedFloat, savedInt

Definition at line 97 of file MyNumberPreference.java.

References com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.MyNumber↵
Preference.myType, com.securics.wildlifecapture.MyNumberPreference.preference_string, com.securics.↵
wildlifecapture.MyNumberPreference.savedFloat, and com.securics.wildlifecapture.MyNumberPreference.savedInt.

6.14.3.4 Object com.securics.wildlifecapture.MyNumberPreference.onGetDefaultValue (TypedArray *a*, int *index*) [protected]

This preference type's value type is Integer, so we read the default value from the attributes as an Integer.

Definition at line 134 of file MyNumberPreference.java.

6.14.3.5 Parcelable com.securics.wildlifecapture.MyNumberPreference.onSaveInstanceState () [protected]

Suppose a client uses this preference type without persisting. We must save the instance state so it is able to, for example, survive orientation changes.

Definition at line 161 of file MyNumberPreference.java.

6.14.3.6 `void com.securics.wildlifecapture.MyNumberPreference.onSetInitialValue (boolean restoreValue, Object defaultValue)` `[protected]`

Set value to `preference_string`

Definition at line 147 of file `MyNumberPreference.java`.

References `com.securics.wildlifecapture.MyNumberPreference.preference_string`.

6.14.3.7 `void com.securics.wildlifecapture.MyNumberPreference.setType (String type)`

Sets value of `myType`

Parameters

<i>type</i>	
-------------	--

Definition at line 37 of file `MyNumberPreference.java`.

References `com.securics.wildlifecapture.MyNumberPreference.myType`.

Referenced by `com.securics.wildlifecapture.GeneralSettings.loadParams()`.

This is the constructor called by the inflater

Parameters

<i>context</i>	
<i>attrs</i>	

Definition at line 20 of file MyStringPreference.java.

6.15.3 Member Function Documentation

6.15.3.1 void com.securics.wildlifecapture.MyStringPreference.onBindView (View view) [protected]

Sets test to preference_string if myTextView is null. If not, declare EditTextPreference p as an extension of shared preference and let p save the value of preference_string to it Set our custom views inside the layout

Definition at line 32 of file MyStringPreference.java.

References com.securics.wildlifecapture.MyStringPreference.preference_string.

6.15.3.2 void com.securics.wildlifecapture.MyStringPreference.onDialogClosed (boolean positiveResult) [protected]

If positiveResult is true, and preference_string has changed, save preference_string to SharedPreferences

Definition at line 49 of file MyStringPreference.java.

References com.securics.wildlifecapture.MyStringPreference.preference_string.

6.15.3.3 Object com.securics.wildlifecapture.MyStringPreference.onGetDefaultValue (TypedArray a, int index) [protected]

This preference type's value type is Integer, so we read the default value from the attributes as an Integer.

Definition at line 63 of file MyStringPreference.java.

6.15.3.4 void com.securics.wildlifecapture.MyStringPreference.onRestoreInstanceState (Parcelable state) [protected]

Restores the instance state if it is not already

Definition at line 113 of file MyStringPreference.java.

References com.securics.wildlifecapture.MyStringPreference.preference_string.

6.15.3.5 Parcelable com.securics.wildlifecapture.MyStringPreference.onSaveInstanceState () [protected]

Suppose a client uses this preference type without persisting. We must save the instance state so it is able to, for example, survive orientation changes.

Definition at line 90 of file MyStringPreference.java.

References com.securics.wildlifecapture.MyStringPreference.preference_string.

6.15.3.6 void com.securics.wildlifecapture.MyStringPreference.onSetInitialValue (boolean restoreValue, Object defaultValue) [protected]

Intializes preference_string

Definition at line 76 of file MyStringPreference.java.

References com.securics.wildlifecapture.MyStringPreference.preference_string.

6.15.4 Member Data Documentation

6.15.4.1 String com.securics.wildlifecapture.MyStringPreference.preference_string [private]

Definition at line 13 of file MyStringPreference.java.

Referenced by com.securics.wildlifecapture.MyStringPreference.onBindView(), com.securics.wildlifecapture.MyStringPreference.onDialogClosed(), com.securics.wildlifecapture.MyStringPreference.onRestoreInstanceState(), com.securics.wildlifecapture.MyStringPreference.onSaveInstanceState(), and com.securics.wildlifecapture.MyStringPreference.onSetInitialValue().

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**MyStringPreference.java**

6.16 com.securics.wildlifecapture.PerspectiveTransformationEngine Class Reference

6.16.1 Detailed Description

Definition at line 3 of file PerspectiveTransformationEngine.java.

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**PerspectiveTransformationEngine.java**

6.17 com.securics.wildlifecapture.MainActivity.PushToJNIRunnable Class Reference

Inheritance diagram for com.securics.wildlifecapture.MainActivity.PushToJNIRunnable:

Public Member Functions

- void **run** ()
- void **doPushing** ()

6.17.1 Detailed Description

Thread runnable to push data to JNI.

Definition at line 1254 of file MainActivity.java.

6.17.2 Member Function Documentation

6.17.2.1 void com.securics.wildlifecapture.MainActivity.PushToJNIRunnable.doPushing ()

Definition at line 1259 of file MainActivity.java.

References `com.securics.wildlifecapture.MainActivity.cam`, `com.securics.wildlifecapture.MainActivity.DEATH`, `com.securics.wildlifecapture.MainActivity.debugMode`, `com.securics.wildlifecapture.MainActivity.directory`, `com.securics.wildlifecapture.MainActivity.doRevisedJNI()`, `com.securics.wildlifecapture.MainActivity.requestList`, `com.securics.wildlifecapture.MainActivity.REQUESTLISTLENGTH`, `com.securics.wildlifecapture.MainActivity.TAG`, and `com.securics.wildlifecapture.MainActivity.useNewProcess`.

6.17.2.2 `void com.securics.wildlifecapture.MainActivity.PushToJNIRunnable.run ()`

Definition at line 1255 of file `MainActivity.java`.

The documentation for this class was generated from the following file:

- `src/com/securics/wildlifecapture/MainActivity.java`

6.18 `com.securics.wildlifecapture.ResetDefaults` Class Reference

Inheritance diagram for `com.securics.wildlifecapture.ResetDefaults`:

Classes

- class **MyFAQ**

Public Member Functions

- **ResetDefaults** (Context context, AttributeSet attrs)

Protected Member Functions

- void **onBindView** (View view)

6.18.1 Detailed Description

Definition at line 13 of file `ResetDefaults.java`.

6.18.2 Constructor & Destructor Documentation

6.18.2.1 `com.securics.wildlifecapture.ResetDefaults.ResetDefaults (Context context, AttributeSet attrs)`

Initialize context, attr and m

Parameters

<i>context</i>	
<i>attrs</i>	

Definition at line 24 of file ResetDefaults.java.

6.18.3 Member Function Documentation

6.18.3.1 void com.securics.wildlifecapture.ResetDefaults.onBindView (View view) [protected]

Binds view from the parameter and m

Definition at line 38 of file ResetDefaults.java.

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**ResetDefaults.java**

6.19 com.securics.wildlifecapture.MainActivity.SavePhotoTask Class Reference

Inheritance diagram for com.securics.wildlifecapture.MainActivity.SavePhotoTask:

Protected Member Functions

- Void **doInBackground** (byte[]...args)

6.19.1 Detailed Description

Definition at line 1841 of file MainActivity.java.

6.19.2 Member Function Documentation

6.19.2.1 Void com.securics.wildlifecapture.MainActivity.SavePhotoTask.doInBackground (byte...[] args) [protected]

Definition at line 1844 of file MainActivity.java.

References com.securics.wildlifecapture.MainActivity.currentRequest, com.securics.wildlifecapture.MainActivity.debugMode, com.securics.wildlifecapture.MainActivity.DEVICE_ID, com.securics.wildlifecapture.MainActivity.directory, com.securics.wildlifecapture.MainActivity.logPhoto(), com.securics.wildlifecapture.MainActivity.requestList, com.securics.wildlifecapture.MainActivity.REQUESTLISTLENGTH, and com.securics.wildlifecapture.MainActivity.TAG.

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**MainActivity.java**

6.20 com.securics.wildlifecapture.SettingsActivity Class Reference

Inheritance diagram for com.securics.wildlifecapture.SettingsActivity:

Classes

- class **CameraSettings**
- class **CamLocationSettings**
- class **CaptureSettings**
- class **DeviceSettings**
- class **ExampleSettings**
- class **GeneralSettings**
- class **ImageSettings**
- class **ModeSettings**

Public Member Functions

- void **onCreate** (Bundle savedInstanceState)
- void **onBuildHeaders** (List< Header > target)

6.20.1 Detailed Description

Definition at line 13 of file SettingsActivity.java.

6.20.2 Member Function Documentation

6.20.2.1 void com.securics.wildlifecapture.SettingsActivity.onBuildHeaders (List< Header > target)

loads headers

Definition at line 50 of file SettingsActivity.java.

6.20.2.2 void com.securics.wildlifecapture.SettingsActivity.onCreate (Bundle savedInstanceState)

initializes layout and buttons

Definition at line 19 of file SettingsActivity.java.

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**SettingsActivity.java**

6.21 com.securics.wildlifecapture.SizeCalculationData Class Reference

Public Member Functions

- **SizeCalculationData** ()

- **SizeCalculationData** (double newImgVertPx, double newImgHorizPx)

6.21.1 Detailed Description

Definition at line 3 of file SizeCalculationData.java.

6.21.2 Constructor & Destructor Documentation

6.21.2.1 com.securics.wildlifecapture.SizeCalculationData.SizeCalculationData ()

set the values of imgVertPx and img HorizPx to 0

Definition at line 11 of file SizeCalculationData.java.

6.21.2.2 com.securics.wildlifecapture.SizeCalculationData.SizeCalculationData (double *newImgVertPx*, double *newImgHorizPx*)

set the values of imgVertPx to newImgVertPx and imgHorizPx to newImgHorizPx

Parameters

<i>newImgVertPx</i>	
<i>newImgHorizPx</i>	

Definition at line 22 of file SizeCalculationData.java.

The documentation for this class was generated from the following file:

- src/com/securics/wildlifecapture/**SizeCalculationData.java**

6.22 com.securics.wildlifecapture.TimePreference Class Reference

Inheritance diagram for com.securics.wildlifecapture.TimePreference:

Classes

- class **SavedState**

Public Member Functions

- **TimePreference** (Context ctxt)
- **TimePreference** (Context ctxt, AttributeSet attrs)
- **TimePreference** (Context ctxt, AttributeSet attrs, int defStyle)
- CharSequence **getSummary** ()

Protected Member Functions

- View **onCreateDialogView** ()
- void **onBindDialogView** (View v)
- void **onDialogClosed** (boolean positiveResult)
- Object **onGetDefaultValue** (TypedArray a, int index)
- void **onSetInitialValue** (boolean restoreValue, Object defaultValue)
- Parcelable **onSaveInstanceState** ()
- void **onRestoreInstanceState** (Parcelable state)

Private Attributes

- Calendar **calendar**
- TimePicker **picker** = null
- int **theHour**
- String **hour** = "theHour" + getKey()
- String **minute** = "theMinute" + getKey()

6.22.1 Detailed Description

Definition at line 23 of file TimePreference.java.

6.22.2 Constructor & Destructor Documentation

6.22.2.1 com.securics.wildlifecapture.TimePreference.TimePreference (Context *ctxt*)

sets context

Parameters

<i>ctxt</i>	
-------------	--

Definition at line 34 of file TimePreference.java.

6.22.2.2 com.securics.wildlifecapture.TimePreference.TimePreference (Context *ctxt*, AttributeSet *attrs*)

set context and attribute

Parameters

<i>ctxt</i>	
<i>attrs</i>	

Definition at line 43 of file TimePreference.java.

6.22.2.3 com.securics.wildlifecapture.TimePreference.TimePreference (Context *ctxt*, AttributeSet *attrs*, int *defStyle*)

set context, attrs, and defstyle. Set positive and negative button and set calendar as a new instance of Gregorian↵
Calendar

Parameters

<i>ctxt</i>	
-------------	--

<i>attrs</i>	
<i>defStyle</i>	

Definition at line 54 of file TimePreference.java.

References com.securics.wildlifecapture.TimePreference.calendar.

6.22.3 Member Function Documentation

6.22.3.1 CharSequence com.securics.wildlifecapture.TimePreference.getSummary ()

gets value for theHour and theMinute, set calendar to the values and return date format of calendar

Definition at line 226 of file TimePreference.java.

References com.securics.wildlifecapture.TimePreference.calendar, com.securics.wildlifecapture.TimePreference.↵
hour, com.securics.wildlifecapture.TimePreference.minute, and com.securics.wildlifecapture.TimePreference.the↵
Hour.

Referenced by com.securics.wildlifecapture.TimePreference.onDialogClosed(), and com.securics.wildlifecapture.↵
TimePreference.onSetInitialValue().

6.22.3.2 void com.securics.wildlifecapture.TimePreference.onBindDialogView (View v) [protected]

set value for picker

Definition at line 76 of file TimePreference.java.

References com.securics.wildlifecapture.TimePreference.hour, com.securics.wildlifecapture.TimePreference.↵
minute, and com.securics.wildlifecapture.TimePreference.theHour.

6.22.3.3 View com.securics.wildlifecapture.TimePreference.onCreateDialogView () [protected]

sets picker to the preference for TimePicker and return it

Definition at line 66 of file TimePreference.java.

References com.securics.wildlifecapture.TimePreference.picker.

6.22.3.4 void com.securics.wildlifecapture.TimePreference.onDialogClosed (boolean *positiveResult*) [protected]

get value for theHour and theMinute and save it to the editor

Definition at line 99 of file TimePreference.java.

References com.securics.wildlifecapture.TimePreference.calendar, com.securics.wildlifecapture.TimePreference.↵
getSummary(), com.securics.wildlifecapture.TimePreference.hour, com.securics.wildlifecapture.TimePreference.↵
minute, and com.securics.wildlifecapture.TimePreference.theHour.

6.22.3.5 Object com.securics.wildlifecapture.TimePreference.onGetDefaultValue (TypedArray a, int *index*) [protected]

returns the value of TypedArray a in the index if there is no value return 4

Definition at line 176 of file TimePreference.java.

6.22.3.6 void com.securics.wildlifecapture.TimePreference.onRestoreInstanceState (Parcelable *state*) [protected]

Set superState from the parameter to the subclass Check whether we saved the state in onSaveInstanceState

Didn't save the state, so call superclass

Cast state to custom BaseSavedState and pass to superclass

Set this Preference's widget to reflect the restored state

Definition at line 284 of file TimePreference.java.

References `com.securics.wildlifecapture.TimePreference.theHour`.

6.22.3.7 Parcelable `com.securics.wildlifecapture.TimePreference.onSaveInstanceState ()` [protected]

Create instance of custom BaseSavedState

Set the state's value with the class member that holds current

Definition at line 252 of file TimePreference.java.

References `com.securics.wildlifecapture.TimePreference.hour`, `com.securics.wildlifecapture.TimePreference.↵`
`minute`, and `com.securics.wildlifecapture.TimePreference.theHour`.

6.22.3.8 void `com.securics.wildlifecapture.TimePreference.onSetInitialValue (boolean restoreValue, Object defaultValue)` [protected]

Sets calendar to proper values and save those values to editor

Definition at line 185 of file TimePreference.java.

References `com.securics.wildlifecapture.MainActivity.debugMode`, `com.securics.wildlifecapture.TimePreference.↵`
`getSummary()`, `com.securics.wildlifecapture.TimePreference.hour`, `com.securics.wildlifecapture.TimePreference.↵`
`minute`, and `com.securics.wildlifecapture.TimePreference.theHour`.

6.22.4 Member Data Documentation

6.22.4.1 Calendar `com.securics.wildlifecapture.TimePreference.calendar` [private]

Definition at line 24 of file TimePreference.java.

Referenced by `com.securics.wildlifecapture.TimePreference.getSummary()`, `com.securics.wildlifecapture.TimePreference.onDialogClosed()`, and `com.securics.wildlifecapture.TimePreference.TimePreference()`.

6.22.4.2 String `com.securics.wildlifecapture.TimePreference.hour = "theHour" + getKey()` [private]

Definition at line 27 of file TimePreference.java.

Referenced by `com.securics.wildlifecapture.TimePreference.getSummary()`, `com.securics.wildlifecapture.TimePreference.onBindDialogView()`, `com.securics.wildlifecapture.TimePreference.onDialogClosed()`, `com.securics.wildlifecapture.TimePreference.onSaveInstanceState()`, and `com.securics.wildlifecapture.TimePreference.onSetInitialValue()`.

6.22.4.3 String `com.securics.wildlifecapture.TimePreference.minute = "theMinute" + getKey()` [private]

Definition at line 28 of file TimePreference.java.

Referenced by `com.securics.wildlifecapture.TimePreference.getSummary()`, `com.securics.wildlifecapture.TimePreference.onBindDialogView()`, `com.securics.wildlifecapture.TimePreference.onDialogClosed()`, `com.securics.wildlifecapture.TimePreference.onSaveInstanceState()`, and `com.securics.wildlifecapture.TimePreference.onSetInitialValue()`.

6.22.4.4 TimePicker com.securics.wildlifecapture.TimePreference.picker = null [private]

Definition at line 25 of file TimePreference.java.

Referenced by com.securics.wildlifecapture.TimePreference.onCreateDialogView().

6.22.4.5 int com.securics.wildlifecapture.TimePreference.theHour [private]

Definition at line 26 of file TimePreference.java.

Referenced by com.securics.wildlifecapture.TimePreference.getSummary(), com.securics.wildlifecapture.TimePreference.onBindDialogView(), com.securics.wildlifecapture.TimePreference.onDialogClosed(), com.securics.wildlifecapture.TimePreference.onRestoreInstanceState(), com.securics.wildlifecapture.TimePreference.onSaveInstanceState(), and com.securics.wildlifecapture.TimePreference.onSetInitialValue().
